

1530 ULTRA MINI CAMERA

High flexibility - Negotiate 90° bends in two inch lines

Eight High Intensity White LED's

The 1530 Ultra Mini camera is an economical solution for inspecting small pipelines. Ideal for an introduction into pipeline inspection. Designed for maintenance departments, plumbing contractors, and municipalities starting or expanding existing pipeline inspection capabilities.

Features

- ✚ Capable of negotiating 90° bends in 2" lines and straight sections in 1.5" lines
- ✚ Fixed focus with eight long lasting high intensity white LED lights
- ✚ Solid-state circuitry housed in stainless steel
- ✚ Designed to be pushed with up to 400 ft. of .25" single conductor integrated Push Rod cable
