

# MEGATRAK CARBIDE WHEELS

Solid Brass Hubs

Nickel Plated Steel

Tough Carbide Grit Tread

Use the MegaTRAK Wheel Kit with your RST mainline wheel driven transporters to maximize traction in low traction conditions! Each wheel adds additional weight and the carbide grit bonded to the wheel increases traction over rubber tires. Its universal hub design allows the operator to quickly change wheel sizes.

## Features

- ✚ All steel nickel plated wheels
- ✚ Kits come with three wheel sizes: 2.7", 3.3", and 4.4"
- ✚ Carbide grit tread greatly enhances traction in all pipe conditions
- ✚ Kits come with all wheel sizes, hubs, and installation tool
