Venturi Blowers

The Venturi Blowers from Allegro are a perfect solution to moving air in refineries, utility and power plants, shipyards, paper and pulp plants, the marine and steel industry and manhole operations. Anywhere where fumes that may be poisonous, explosive or hazardous from process towers, tanks, large pipes or confined space need to be removed. You can cool workers in elevated temperature conditions, or cool heavy equipment that may be in danger of overheating or that needs to be cooled in order to work on, with a blast of directed air. Our line of high-performance, lightweight Venturi Blowers help to create a safe, healthy working environment leading to greater efficiency and productivity. Welding fumes, hot air, gases and smoke can all be removed quickly and easily. And our Venturi Blowers can also be used to move fresh air into a manhole.

SPECIFICATIONS

Part Number	Overall Length	Diameter of Base	Diameter Top of Horn	NPT Size	Bolt Circle Diameter	Bolt Circle Diameter	Net Weight	Duct Size
9518-03S	16.75"	7.31"	6.0"	1/2"	6.56"	0.4	5.5 lbs.	8"
9518-03	30.5"	7.31"	7.0"	1/2"	6.56"	0.4	8.5 lbs.	8"
9518-06	44.25"	11.25"	12.5"	1"	10.50"	0.4	22.3 lbs.	16"
