Environmental Damage

In the past year.....22 spills prevented ...3 intrusions caught

Spills that **DID NOT HAPPEN** due to **root blockage**:

August 15, 2006 8:22:43 AM
September 24, 2006 11:56:00 AM
November 15, 2006 7:06:18 AM
December 11, 2006 10:12:38 AM
February 8, 2007 3:41:16 PM

Spills that **DID NOT HAPPEN** due to **grease buildup**:

December 10, 2006 10:08:07 AM
December 17, 2006 9:45:01 AM
December 23, 2006 10:55:12 AM
December 24, 2006 10:49:07 AM
December 26, 2006 5:17:36 PM
December 30, 2006 10:51:28 AM

Spills that **DID NOT HAPPEN** due to **rocks and debris**:

June 25, 2006 9:28:59 AM
July 22, 2006 8:43:43 AM
February 24, 2007 10:47:15

Spills that **DID NOT HAPPEN** due to **equipment failure**:

February 24, 2006 9:18:08 AM
May 2, 2006 10:45:00 AM
November 14, 2006 8:04:18 AM
February 19, 2007 2:22:27 PM

Spills that **DID NOT HAPPEN** due to **storm flooding**:

December 13, 2006 6:31:02 PM
January 30, 2007 12:43:26 PM
February 19, 2007 7:29:59 AM

WHAT CUSTOMERS ARE SAYING ABOUT SMARTCOVER®

"In the past, we would usually find out about a wastewater spill after the fact - when it is too late. With SmartCover®, we have a cost-effective system which helps us prevent the spill. While we have only had the units in our system for a few months, we have already averted what could have been a costly spill"

Gary Arant
General Manager
Valley Center MWD

"The SmartCover® alarm warned us of a possible sewage stoppage, and when we arrived at the location, we found kids had removed the lid and dropped bamboo and debris in the manhole. We have now installed SmartCover® in an area that previously had a large sewage spill in a remote wooded area, and feel confident that we will be alarmed to prevent this in the future."

Kyle Drake
Foreman
Fallbrook PUD

"Instead of media and cameras, the SmartCover® system has helped us respond to an urgent problem with time to react in an emergency. Since initial installation, we have been able to use the SmartCover® level data to perform maintenance on parts of our collection system when it is needed, and long before we have a serious problem. The information the system provides tells us when something needs to be done, and shows us the results long afterwards."

Rick Carver
Maintenance Superintendent
City of Hawthorne

"We approached the SmartCover® like any new technology - with care and a certain amount of healthy skepticism. But after the SmartCover® units were installed, we immediately gained benefit by first locating a problem that we weren't aware of, then stopping a spill in a sensitive environmental area. Within a few months of use, the SmartCover® system has already paid for itself."

Chad Davisson
Recycled/Wastewater Supervisor
Olivenhain MWD

"We are installing the SmartCover® in our collection system and also at our lift stations as a backup alarm system. Within a couple of weeks, the SmartCover® sent us a level alarm at one of our lift stations and helped us diagnose a problem with one of our pumps that could have resulted in a spill. Without the SmartCover®, we would still be trying to figure out the problem"

Ron Fajardo
Wastewater Supervisor
City of El Segundo
