

SALES CODE	SUPER PRODUCTS NUMBER	DESCRIPTION	FUNCTION	For Truck Type(s)
CE18		Body Load Limit Alarm	Audible alarm located at operators station in addition to the warning light	Camel
CE25		10-yard SuperPak® Dewatering and Compacting System (ejector only)	Multi purpose ejector plate compresses material to remove more excess water than normal gravity drain	Camel
CE27	9810-00331	16-yard SuperPak® Dewatering and Compacting System (ejector only)	Multi purpose ejector plate compresses material to remove more excess water than normal gravity drain	Camel
CE36		Curb side hydraulics	Moves the operator away from traffic	Camel
CJ03-CJ06		Pendant Controls	In addition to the joystick control, plug in pendant with 25 foot cord with 4 - 8 function operations	Camel Mud Dog Supersucker
CL04		Block Buster Valve (manual)	Allows operator to vary water pressure and flow at the nozzle to break through blockages while maintaining maximum vacuum	Camel
CL12		Block Buster Valve (automatic)	Automatically provides the jackhammer action	Camel
CN14		Foot Controls in addition to standard reel controls	Allows the operator to maintain 2 hands on the dig tube and still operate unit	Camel
CN15		Foot Controls in lieu of standard reel controls	Allows the operator to maintain 2 hands on the dig tube and still operate unit	Camel
CN25		Front hose reel tensioning system	Helps prevent hose from unwinding during transport	Camel
CN26		Digital readout for front, front reel hose counter	Easier to see and read hose pay-out length	Camel
CN27		Digital readout for front, mid reel hose counter	Easier to see and read hose pay-out length	Camel
CQ07		Dual boom work lights	Allows better lighting for night vacuuming	Camel Mud Dog Supersucker
CQ08		Tailgate flood light	Provides better sight and safety in rear of truck	Camel Mud Dog Supersucker
CR07		Hydraulic assisted tube rack	Provides lower operator reach for storing dig tubes	Camel Mud Dog Supersucker
MC04		Body flush system	Allows operator to clean out debris body after dumps more efficiently	Camel Mud Dog Supersucker
MC11		Manual blockbuster valve	Allows operator to vary water pressure and flow at the nozzle to break through blockages while maintaining maximum vacuum	Supersucker
SG03A		Vacuum pump exhaust air temperature gauge	Allows operator to monitor temperature of the exhaust air from vacuum pump.	Supersucker
SM04		Portable HEPA filter (requires SG03A)	Creates cleaner exhaust air	Supersucker
SM07		Creeper system	Allows operator to travel at 5 MPH during vacuuming process	Supersucker
SM23A		Dry material level indicator	Automatically trips back-up alarm when predetermined load is met	Supersucker
SU04		Sludge pump	Allows operator to unload non-solid debris from body with out unloading entire load.	Camel Mud Dog Supersucker
SU06		Hydraulic Vibrator	Allows operator to vibrate debris from vacuum bags from operator station	Supersucker
MU07		Oil cooler for hydraulic system	Helps prevent hydraulic system from over-heating during operation	Camel Mud Dog Supersucker
HE25	9410-01379k	SuperPak® dewatering system	Allows operator to dewater load for significantly drier dump loads	Mud Dog
	9210-00948	Soft Start Mid-Reel Valve Kit	Reduces hose loosening on drum	Camel
